## Foundations and

Diversification
These include the calculus IIV and UHM Gen. Ed. Core Requirements.

In these courses, you should acquire the tools to succeed in college and be introduced to global and Hawaiian perspectives.

Hawaiian/Second Language and Focus
These graduation requirements include two years of language and an Ethics, Writing Intensive and Oral component.

$$

$$

## Core

These are the core courses of the major. Math 412 \& 413, and 431 are minimum requirements for most graduate math programs. Even if you are not continuing to grad school, math majors should take the bulk of their courses from this section.

## 412 \& 413 Intro. Abstract

 Algebra431 \& 432 Principles of Analysis I \& II 402 Partial Diff. Eqns* 407 Numerical Analysis* 411 Linear Algebra* 420 Intro. to Theory of Numbers 421 Topology 442 Vector Analysis* 443 Differential Geometry 444 Complex Analysis* 454 Axiomatic Set Theory 455 Math Logic 471 Probability* 472 Statistical Inference*

For a BS, up to 15 credits of upper division courses can come from related disciplines (Related XXX).

* Denotes suggested mathematics electives for a student interested in applied mathematics.
** Denotes required courses for Certificate in Math Biology.
