### Foundations and Diversification

These include the calculus I-IV and UHM Gen. Ed. Core Requirements.

In these courses, you should acquire the tools to succeed in college and be introduced to global and Hawaiian perspectives.

### Bridge

These courses are your bridge to upper level mathematics. In 307 or 311, 321, & 331 you develop the tools to do advanced mathematics. The 300 level topics courses are good to take in your 2nd & 3rd year.

- **311 Intro. Linear Algebra**
- **307 Linear Alg. & Diff. Eqns.**
- **321 Intro. Adv. Math**
- **331 Intro. Real Analysis**
- **301 Intro. Discrete Math***
- **302 & 303 Intro. Diff. Eqns.***
- **304 & 305 Math Modeling***
- **351 & 352 Foundation of Euclidean & Non-Euclidean Geometry**
- **372 Elementary Probability & Statistics***

### Core

These are the core courses of the major. Math 412 & 413, and 431, are minimum requirements for most graduate math programs. Even if you are not continuing to grad school, math majors should take the bulk of their courses from this section.

- **412 & 413 Intro. Abstract Algebra**
- **431 & 432 Principles of Analysis I & II**
- **402 Partial Diff. Eqns.***
- **407 Numerical Analysis***
- **411 Linear Algebra***
- **420 Intro. to Theory of Numbers**
- **421 Topology**
- **442 Vector Analysis***
- **443 Differential Geometry**
- **444 Complex Analysis***
- **454 Axiomatic Set Theory**
- **455 Math Logic**
- **471 Probability***
- **472 Statistical Inference***

### Hawaiian/Second Language and Focus

These graduation requirements include two years of language and an Ethics, Writing Intensive and Oral component.

Up to 15 credits of upper division courses can come from related disciplines.

3xx-4xx Suggested Courses:
- Phys: 305, 310, 311, 350, 400
- ICS: 311, 314, 361, 414, 435, 442, 461, 475, 483, ME:360

* Denotes suggested electives for a student interested in applied in mathematics.

** Certain upper level science courses can be used to fulfill the DB, WI and E requirements.
