Instructor ROSS

Course and Section no. Math 243 Section 2

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

Overall, Professor Ross was a very good instructor. The way he conducted class was very helpful and appropriate. His web page was very useful in the course and preparation for exams helped a lot. Sometimes, he could grade pretty harsh, but for the most part, he is very fair.

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

I liked ROSS, I learned a lot from him. He really knows a lot about math. His explanations are somewhat easy to follow. I think he has a good personality & sense of humor. Wrote nicely on the chalkboard. I liked how he set aside time to do questions on hw. That was really helpful.

Good professor. Would be nice if he taught 244 too
so I could take him next semester.

I liked the jokes.

Practice exams and quiz answers being online
was very useful.

The page crib sheet was also.

Instructor David Ross

Course and Section no. Math # 243 ~~243~~

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

Prof. Ross covered the material well in class.
He answered ~~questions~~ all questions that we had.
I liked the quizzes because it made me
study and stay on track.

Some of the quizzes were too long to
be finished within 10-15 min.

Instructor Professor David Ross

Course and Section no. Calculus III

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

He goes through the material thoroughly, with a reasonable amount of time to study. I also like the fact that this schedule purposely ends/covers the material early so that there is some time for review.

The only thing I can suggest is maybe a little more example problems. Also, sometimes the quizzes are returned kind of late when I wanted to see my grade faster. However, I understand that professors have busy schedules.

THANK YOU FOR A GREAT SEMESTER!

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

Strengths

- Explains things thoroughly
- Very knowledgeable

Weaknesses

- Some homework problems are too difficult & not really explained in class

*Completed questionnaires will be given to your instructor after final grades for the course have been assigned. You are not expected to sign this form.

Course and Section no. Math 243 Section 2

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

- Always clear on tests
- Challenging with quizzes
- Maybe a little too many homework questions, however we were pre-warned on the syllabus
- Helpful xeroxed notes
- Always open for office hours
- Not bad at all

- + Knows material very well
- + grading policy is fair
- sometimes class gets boring but it's to be expected with the material
- + I like the no HW policy

I really liked the jokes, it kind of refreshes the class, but you only did like half the semester. Midterms are a bit too hard I thought, especially proofs, not all of us are math majors. Everything else is good.

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

He goes over the content we need for this class well. He also chooses an order in which to learn the chapters so we can better understand it. I did have a problem with the time to take the quiz + test. And it would have been nice to see specific problems from the text or his own problems done during class. Overall a good teacher.

Course and Section no. Math 243

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

Strengths :- well prepared before class
- detailed lectures.
- fair grading.
- answers email quickly
- good website

Weakness - I get lost in lecture sometimes.
- take long to grade things.

Overall the class went well. The quizzes matched the material that was being covered. Tests were also relevant. One thing I noticed was the stress on detail "after" a test/quiz. It wasn't too clear on how much work had to be shown. If you simplified an expression and did not put why sometimes it would cost points. Just a little random. Class was better than expected compared to student comments.

Course and Section no. 2

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

I feel that at times the instructor makes the material a little more complicated than it is. More visuals would be nice to grasp a better understanding of the problem. The quizzes could be returned in a more timely fashion. Instructor is always prepared for class. I like that the instructor discusses problems from the homework during class. Tests are well written to test our knowledge on what we were taught in class. They normally, with the exclusion of 1 problem on the 2nd exam, do not exceed what we should know.

I enjoyed the method of teaching, really. The only criticism I might have is that at times it's difficult to keep up with the rapid pace of the material.

One other suggestion I would have for the course is to make homework mandatory, in that students won't be graded for getting a right answer, but for actually going through the material and attempting to answer problems.

I know that would have really helped me in this course.

In other aspects of the class, I thoroughly enjoyed your teaching style and atmosphere.

Thanks.
