The lectures are clear and solid.

To me, the way of teaching (put more effort on probability and theory part) is nice.

I think I got what I need.

only thing is that the letters on the blackboard are too small to read.

David has good attitude for helping students.

The instructors knowledge of the material is obviously vast and great.

I would have liked to see some computer programs which dealt with some of the topics we covered.

Dr. Ross seems like a very fair teacher in grading, and although the material is very difficult and advanced, I enjoyed his class.

He is a responsible instructor and knows his stuff quite well.

I'm glad to have him as my teacher.

Sometimes ~~it is~~ <sup>He doesn't</sup> ~~hard for him to~~  
~~have time to~~ organize his ~~lecture notes~~ <sup>well</sup>. I'm  
~~what I'm saying is that his note book is a little~~  
~~bit messy which it takes times to find where~~  
~~which part then this makes lecture not run smoothly.~~  
There is always a break for him to look for  
notes. Overall, he is a great teacher.

Professor Ross made this course very interesting and worth to study. I learned a lot of new things for this course, although I have studied statistics before. Professor Ross did every thing theoretically, and his method of thinking, analysing is new and helpful, to improve our ability. I'm very pur to express my feeling of making a great progress under professor Ross's help.  
Thank you very much.
