The instructor was very nice. He was helpful when we had questions. I do think that he covered the course work very fast. It was hard because we didn't cover all that we were supposed to in Math 471. Hence things that should have been review material.

I liked the course, it was presented fairly logically, and given the small size of the class was appropriately flexible. I must agree that the text was not ideal, but overall, quite adequate.

I thought the class was very interesting. The problems in the books were challenging, but I thought the book was pretty good.
